

Silverado Elite Tracking Vehicle Specifications

The Silverado Elite is a 6-Wheel Tracking Vehicle, ideal for carrying a wide range of camera cranes as well as all round tracking. Key features 6L Petrol, 4 Speed Automatic- Computer Controlled Transmission, Full size 4 door crew cab, large rear working area and high weight carrying capacity for cranes, crew, and equipment.

Crew capacity is 6 on the working platform, and 3 in the crew cab (plus driver).

The universal floor can be adapted to suit most camera cranes including their complete dolly bases. For example, the Scorpio 30ft or Super Techno 30' can be mounted in a fully built mode in a relatively short space of time.

Driven by one of our Precision Tracking Vehicle Drivers.
