

Trojan Electric Tracking Vehicle – Side by Side Specifications – 3x Available

The “Trojan ” Side by Side is our Compact Electric Powered tracking vehicle / Powered Dolly – 3x Available

The vehicle is virtually Silent, making it the perfect vehicle when recording sound, also ideal for filming in indoor spaces as it produces no fumes. It is capable of tracking at low speed and up to 40 Kmh. The Independent Fully Adjustable Air Suspension can carry 3 crew members plus precision driver and a good payload for equipment / Jib Arms. Its low line of sight makes it unobtrusive and can be easily hidden in flowing traffic for example. The Left Hand Drive Driving position allows the camera to be easily rigged for POV Shots (point of view shots) from the Passenger’s seat which is fitted with a multi drilled Cheese plate with M12 Threaded holes. The vehicle has scaffold safety rails that double as rigging points for camera and lighting, together with a Multi drilled and threaded rigging platform plates front and rear. It is road registered. Additional mounts can be made for specific requirements. Driven by one of our Precision Tracking Vehicle Drivers.
