

Dominator Electric Quad Tracking Vehicle Specifications

The "Dominator" Electric Quad Tracking Vehicle is fully electric meaning Zero Noise and Zero Emissions making it ideal when filming sound or in indoor spaces.

The Dominator Quad can cope with most type of terrain and is often used with Steadicam or a remote head system such as the Libra Head - Flight Head- Ronin 2 and many others (contact us for full list).

It is capable of tracking at low speeds and up to 40Kmh.

It has various camera fixings front and rear, where the camera can be handheld, hard mounted or mounted via remote head with wireless controls. Additional rigs for this vehicle can be made upon request.

The Dominator Quad can carry 2 crew members plus the precision rider.

The Dominator Quad is road registered for use on Public Highway (Dependent on tracking shot required).

It is ridden by one of our precision tracking vehicles drivers.
